Series 3-10: Subseries: Artworks

- Artwork Views
  Research material consulted by PCI team including past exhibition views, drawings, related artworks not in the Guggenheim collection, and other related documents. Detailed contextual information about these records can be found in the artwork history documents.

- Components Reclassified to Archives
  In 2017 the PCI re-catalogued artwork related materials including drawings and components. These materials were reclassified and transferred to the archives. Detailed contextual information about these records can be found in the artwork history documents. Some images, particularly photographs, are duplicated under "artwork views."

- Drawings in the Guggenheim Collection
  Drawings related to artwork in Guggenheim collection. As part of broader re-cataloging of drawings and other components undertaken by the PCI in 2017, these drawings were assigned their own object record in the museum's collection database.

- Paper-based Artwork Components
  Documents that continue to be maintained in the museum's artwork storage and catalogued in the museum's collection database. These documents include certificates of authenticity, technical drawings, and other documents that originated with the artists. Some of this material is restricted.

- Technical Documentation
