Sensory advisory: this gallery is covered in a green light that may be disorienting, especially on entering and exiting the space.

**High sensory areas (pink)** are often more crowded, and may have a mix of multimedia exhibits and loud noises.

**Medium sensory areas (yellow)**, are often less crowded, and have lower noise levels. These spaces may have some multimedia exhibits.

**Low sensory areas (blue)** are usually the quietest and the least crowded. These areas have no multimedia exhibits, may have seating and natural light, and can be a good space to take a break.
